EDUCATION

Practicum School of Web Development

Online Web Developer program

(April 2020 - February 2021)

After finishing my Bootcamp, I decided to polish my skills and started a new web development course. Practicum's Web Developer program is an intensive 10-month course in web development that covers HTML, CSS, JavaScript, React, back-end infrastructure, and more. Throughout the curriculum, essential soft skills are developed, along with hard deadlines for projects aimed at replicating a real-life work environment.

CareerFoundry
